

## America At Night

Creeper

America at night, under halogen light  
We fall out of youth and we love out of spite  
She's coca-cola red and I'm pepsi-cola blue  
In the land of the free I'm a prisoner for you

Melt into me, white and blue and red  
We live until we're 25, for 50 more we're dead  
Fear for nothing, love is bought and sold  
I never knew the golden state could ever feel so cold

Here comes the dark  
Here comes the dark  
There's a hole in my heart and here comes the dark

America at night, hiding from the light  
Of the golden arches as a pale horse appears  
She sways to the beat, she sweats through my sheets  
When the sunrise gets in even vampires can't sleep

Here comes the dark  
Here comes the dark  
There's a hole in my heart and here comes the dark  
Here comes the dark  
Here comes the dark  
There's a hole in my heart and here comes the dark
