

Be My End

Creeper

Would you be-be-be my Armageddon
As we fall-fall-fall out of heaven
Unkept, unslept, and unforgiven
I'll be choking and drinking and dying
And dreaming of you

When the sun comes we vanish like vampires
We're gonna die in the summer

Baby, you could be my end
So kiss me in the dying light
Our last night on earth could be so cute
You could be my end
But I don't wanna die tonight
At the hand of anybody else but you

And the cops came down in anticipation
Of a sky on fire like revelation
Can we burn and burn into temptation?
Scorch my sun, let my bones, my body decay

When the sun comes we vanish like vampires
We're gonna die in the summer

Baby, you could be my end
So kiss me in the dying light
Our last night on earth could be so cute
Yeah you could be my end
But I don't wanna die tonight
At the hand of anybody else but you

Descend on me like an angel
Descend on me like the devil you are

Baby, you could be my end
So kiss me in the dying light
Our last night on earth could be so cute
Yeah this could be the end
But I don't wanna die tonight
At the hand of anybody else but you
