Creeper

Dysfunktional

I got the twelve gauge kickin' in the trunk ya know  
Rollin' through the ghetto slow  
Zapp pumpin' on the radio  
Peepin' out the holes  
I'm dysfunktional

Dysfunktional

My brain is under reconstructional  
Surgery, I appear to be  
Having a withdrawal of profanity  
And preachin' my usual everyday insanity  
Philosophy of an ancient greek  
Mentality of a modern freak  
So shut your damn mouth and listen to me speak  
And I'll tell you where to go  
I'm dysfunktional

Dysfunktional

Well I'm crazy in the brain

A vicious lost dog that ain't never gonna change

Dysfunktional

Well I'm crazy inside

I used to have a soul but that sucka went and died

Ya'll dysfunktional

Ya brawl and drink alcohol

I got at least five women that I could call

Dysfunktional

I never had a role model

Went from the bottle to the bottle

Straight to hell, full throttle

I'm dysfunktional

And I'm on a damn roll

When I went to school I was never very punctual

So I stole, my pockets were on swole

A lot of money and a ho was my only goal

I'm really very sorry for the blood that I spilt

Always on the tilt

Never feel any guilt

I'm wild, I was beat as a child

Don't bother pressing charges

Cuz they are already filed

I shaved my big head cuz I didn't want it styled

Co-dependant, alcoholic

With a lot of disorders

So I hang out on the corner and I loiter

The consequence of being poor

I'm dysfunktional

Dysfunktional

Well I'm crazy in the brain

A vicious lost dog that ain't never gonna change

Dysfunktional

Well I'm crazy inside

I used to have a soul but that sucka went and died

Ya'll dysfunktional

Ya brawl and drink alcohol

I got at least five women that I could call

Dysfunktional

I never had a role model

Went from the bottle to the bottle

Dysfunktional

Well I'm crazy in the brain

A vicious lost dog that ain't never gonna change

Dysfunktional

Well I'm crazy inside

I used to have a soul but that sucka went and died

Yee hee hee
