

## Razor Wire

Creeper

I'm out hunting for a devil tonight  
To take me back to his place  
He'll submit to memory my secret name  
I want him to get down on his knees  
I want him to serve and not pray

Decapitation is lifestyle, baby  
Come on and give me your head  
To crave my kiss implies sadistic desire to touch  
Razorwire

I'm staying out, sleeping with a devil tonight  
To kill the 'mourning stars' light  
Stay underneath me, I will reign down on top  
I see you get down on your knees  
I hear you beg me not to stop

Decapitation is lifestyle, baby  
Come on and give me your head  
To crave my kiss implies sadistic desire to touch  
Razorwire

A coffin for you, someone I long to knock nails right into  
I'm a guillotine girl, I'm a bed of nails  
Just a pretty face in love with the fire's of death's embrace

Collect the heads of all the boys and put them on my wall  
I hack the heads off all the boys and put them on my wall

Decapitation is lifestyle, baby  
Come on and give me your head  
To crave my kiss implies sadistic desire to touch
