

Abduction

Crematory

Observed and protected - arise and connected
Observed and protected - arise and connected

A light brakes through the darkness - empty shadows scurry through the streets
Hooded creatures breaking out - late at night it comes about
Turned my back on faith - to hope the task is placed

Abduction - caught in addiction - abduction - sorrow and affliction
Abduction - trapped in sorcery - abduction - pain and misery - and misery

The arrival of the unknown - blood flows through machines of iron
Plasma once produced by veins - life once set in your own sense
Memory self controlled - remember the death so old

Abduction - caught in addiction - abduction - sorrow and affliction
Abduction - trapped in sorcery - abduction - pain and misery - and misery

Observed and protected - arise and connected

Abduction - caught in addiction - abduction - sorrow and affliction
Abduction - trapped in sorcery - abduction - pain and misery - and misery
