

As Darkness Calls

Crematory

What have I done - what can the heart achieve for you
What kind of mind do you know
What did I see - why are you lying empty words
What fighting for - the dark we don't believe anymore

Who wants to counteract bizarre - beware the time
Lightning wars - watch your soul to compromise

What is darkened in my heart - what terror lies in my soul
When we die in the morning - everywhere in the world - sacrific
ed
No more life in this world - what a senseless death
Another day - another dawn - another different life - as darkne
ss calls

What's going wrong - what can the time conquer for you
Which destination is your way
What did I feel - why are you cheating empty dreams
What screaming for - the dark we don't dare anymore

Who wants to counteract bizarre - beware the time
Lightning wars - watch your soul to compromise

What is darkened in my heart - what terror lies in my soul
When we die in the morning - everywhere in the world - sacrific
ed
No more life in this world - what a senseless death
Another day - another dawn - another different life - as darkne
