

# Blessed

## Crematory

The light of the past - will always find you  
It will disappear forever  
You always thought that everything was right  
But in the end there is only dark cold night

No friend - no enemy - my deliverance will come  
No heaven - no hell - my redemption is done

Blessed by fire - blessed by God  
Hope is all that we've got  
Blessed by evil - blessed by death  
Take away all my breath

The shadow of time - tells chapters of life  
It will find peace forever  
They always knew - it was a holy pain  
But in the end only blood and tears remain

No friend - no enemy - my deliverance will come  
No heaven - no hell - my redemption is done

Blessed by fire - blessed by God  
Hope is all that we've got  
Blessed by evil - blessed by death  
Take away all my breath  
Blessed by fire - blessed by fire  
Blessed by God - blessed by God  
Blessed by evil - blessed by evil  
Take away all my breath
