

# Days Without Sun

## Crematory

The day without a sun  
I'm feeling so alone  
Walking through the twilight  
Searching for my home

Days without sun  
A world without a light  
I'll keep on moving  
Through the darkest night  
Days without sun  
A world without a light  
I'll keep on moving  
Through the darkest night

Woke up this morning  
Sky was dark and gray  
The world felt heavy  
In a different way  
No light to guide me  
No heat upon my face  
Just an endless shadow  
In this empty space

Days without sun  
A world without a light  
I'll keep on moving  
Through the darkest night  
Days without sun  
A world without a light  
I'll keep on moving  
Through the darkest night

Streets are empty  
Like a long forgotten dream  
Whispers in the distance  
Things aren't what they seem  
Memories are fading  
Lost in blackened sky  
Trying to remember  
The reasons why

Days without sun  
A world without a light  
I'll keep on moving  
Through the darkest night  
Days without sun  
A world without a light  
I'll keep on moving  
Through the darkest night

Through the storm  
Through the rain  
I will push through the pain  
Through the shadows  
Through the dark  
I will wait for a spark

Days without sun  
A world without a light  
I'll keep on moving  
Through the darkest night  
Days without sun  
A world without a light  
I'll keep on moving  
Through the darkest night
