

For Love

Crematory

For Years this feeling of intimacy
This pleasant well-known shower
Of endearment
My love for you burns like a fire
In my deepest self
Your love is the absolute
Perfection on earth
People would kill for these
Feelings and emotions
My thoughts circle around your life,
around our life till eternity
You are the enrichment of my life
You are the vitality of my life
My heart inflames at the sight of you
I would die if I couldn't feel your love
I hear you smile
Your voice in my dreams
When I wake day and night
But I would never like to miss the feeling
Once I gave you my heart
And you treat it like your own
Flesh and blood
Emotions say more than
Thousand words
With you to the end of the world
To the end of our life
Neither death nor Satan are
Capable of separating us
You are the enrichment of my life
You are the vitality of my life
My heart inflames at the sight of you
I would die if I couldn't feel your love
I hear you smile
Your voice in my dreams
When I wake day and night
Your eyes are like a drug
