

Immortal

Crematory

Whatever you say
The hot, red blood runs through my veins
Whatever you do
The search for all these empty years
What can I do
The pain will never stop hurting
What should I do
The suffering will be my burden

Immortal love - immortal life
How much I keep searching
Immortal flame - immortal time
How often I keep calling - I am immortal

Whatever you now
My dreams become a desperate desire
Where ever you are
Your eyes are following my way
What you're looking for
Your voice is drilling into my ears
What you'll ever find
So deep in my heart
So deep in my mind

Immortal love - immortal live
How much I keep searching
Immortal flame - immortal time
How often I keep calling
I am immortal
I am forever
I am immortal
I am forever immortal
Immortal
