

No one will do me any favor
I walk alone in the line
Hopeless I search for a savior
Slowly I start to loose my mind

I stumble in the wrong direction
In paradise there is no space
I see my own last reflection
I see me lying in a deep, old grave

Salvation - I'm the fallen angel
Crying in the darkness - Hope is out of sight
Salvation - You're my guardian angel
Dying in the darkness - Be my leading light

I lay my soul down in your hand
There is a final price to pay
I'm just about to make my last stand
Get on my knees and pray

I follow the false savior
The keeper of the past
Trusted a wrong behavior
But he will lead you to the last

Salvation - I'm the fallen angel
Crying in the darkness - Hope is out of sight
Salvation - You're my guardian angel
Dying in the darkness - Be my leading light

Under the moon I will die
Nobody by my side
A dark and lonely life
Nobody sees my unforgettable fight

I stumble in the wrong direction
In paradise there is no space
I see my own last reflection
I see me lying in a deep, old grave
