

Save Me

Crematory

I don't believe it's something new
A thousand times that we've been through
In different ways, we have seen this face
Dump, cold and bare, this game is so unfair

I don't see that it's true
When the lights ain't shining through
It's so cold, so bare - it's so, so unfair

Save me from fallin' - save me from the pain
Save me from tomorrow - when you turn away
There's nothing more to say - there's nothing more to live
To live and die for

The whole world was not enough
For the visions we've painted with love
It's getting dark - I've got to go
The stars are fallin' - since you've been gone

I don't see that it's true
When the lights ain't shining through
It's so cold, so bare - it's so, so unfair

Save me from fallin' - save me from the pain
Save me from tomorrow - when you turn away
There's nothing more to say - there's nothing more to live
To live and die for

Till my world has ceased to turn
I'll be eager ...I just wanna burn
You gave me the sweet blow of death
Now I'm waiting for his last caress

Save me from fallin' - save me from the pain
Save me from tomorrow - when you turn away
There's nothing more to say - there's nothing more to live
To live and die for
