

# The Sound of My Life

Crematory

I never die  
Before I hear your voice in my dreams  
Inside my heart  
My love within, behind the wall  
We rise and fall  
So stay with me or left the ground  
As darkness calls  
Until the dawn

This is the sound of my life  
These are the creatures of my senses  
This is the nature of my mind  
The black heartbeat of my soul  
This is the sound of my life  
These are the creatures of my senses  
This is the nature of my mind  
The black heartbeat of my soul

If you believe  
In the curse now open your eyes  
Back from the dead  
Revenge is mine - The Lord of lies  
The Angels fly  
Just dreaming and pray alone  
The demon inside  
Time for tears

This is the sound of my life  
These are the creatures of my senses  
This is the nature of my mind  
The black heartbeat of my soul  
This is the sound of my life  
These are the creatures of my senses  
This is the nature of my mind  
The black heartbeat of my soul

The sound of my life is black  
The sound of darkness is black  
The sound of my life is black  
The sound of darkness is black

When the darkness falls forever  
The beginning of the end  
Welcome to the wrong side  
Where the ghost of the past reigns  
The shadowmaker never looks back  
Say goodbye until the end  
My last words, farewell letter  
Where are you now?

This is the sound of my life  
These are the creatures of my senses  
This is the nature of my mind  
The black heartbeat of my soul  
This is the sound of my life  
These are the creatures of my senses  
This is the nature of my mind

The black heartbeat of my soul
