

Take it out on me  
I leave it up to you

The more I intervene  
The more gets lost on the way  
I can see myself in you can you see yourself?  
Yeah, do what you can  
And you will stay who you are  
You unleashed a monster  
Now it's coming back for you

It's given to you, life  
Tomorrow will never be yesterday  
Chasing the highs  
Still we are alone

Make a decision  
Make it quick  
Cause this shit is gonna burn  
That's why we watch the shit  
That's why we feel the shit  
That's why we want the shit  
How we want the shit

Distraction and bullshit...  
Are no longer tolerated  
Disconnect me from my words  
But not from what i'm saying  
Let others take the risk  
I'd like to sit back and watch if that's ok

Straight ahead  
Solution  
Straight ahead  
Confusion  
Do you want to walk through life with me,  
Or are you just enjoying my company?

Your whole life consists of avoiding mistakes  
I am a fish on the carpet  
I wanna see the fish on the carpet  
I won't hold on to your hand and drown

I want something  
I want something  
I want something pure  
I want something  
I want something  
I want something pure

Why  
Can't we name the things as they are?  
Respect ourselves for who we are?  
Bleed with the hurt  
Lie in the dirt  
No one could ever take that away
