

Call It A Night

Cris Cab

When I'm not in Los Angeles
I'm at the dance club turning up
These girls are so scandalous
You might even die before you fall in love
Now I'm at The Nice Guy
The nicest guy at the nice guy, I try
I never tell a lie
Depends on how many drinks I buy

I can't slow down when I'm away
It's just so hard to get away
And I get so upset because
I already know

Nobody wants it to call it a night
Now that we're rolling
We can't wait for the morning light
Cause we never know when

You can't fall asleep (tonight, tonight)
You can't fall asleep (tonight, tonight)

It never rains in Los Angeles
And I'm on the dance floor burning up
It must be the alcohol
The way that I'm feeling, I can't get enough
Catch you out to another place
You know where we are going
Somebody said it was getting late
Time goes by and every night I can't

I can't slow down when I'm away
It's just so hard to get away
I get so upset because
I already know

Nobody wants it to call it a night
Now that we're rolling
We can't wait for the morning light
Cause we never know when

You can't fall asleep (tonight, tonight)
You can't fall asleep (tonight, tonight)

It's not over until it's over
Cause all that matters is what we're searching for
We can't help it
We get selfish
I get so upset because
I already know

Nobody wants it to call it a night
Now that we're rolling
We can't wait for the morning light
Cause we never know when

You can't fall asleep (tonight, tonight)

You can't fall asleep (tonight, tonight)
