

# Dancing In The Dark

Cris Cab

Turn your lights off for me  
Your silhouette moving where I wanna be  
Like a magnet you on top of me  
Wrap me all around in your energy  
Girl you're taking me sky high  
Take a big puff, blow it out for me  
Got me feeling so low yeah  
Probably just met so we're so crazy

You get so uncomfortable  
So let's turn the lights down low  
Your hips moving nice and slow  
You can see it in but I know  
You get so uncomfortable  
So let's turn the lights down low  
Girl you're so beautiful

Here we go, there you are  
Dancing in the dark  
And you stole, stole my heart  
Dancing in the dark  
And I know once we start  
Dancing in the dark  
That you stole, stole my heart  
Dancing in the dark

Ooh-whoa  
Ooh-whoa  
Ooh-whoa  
Ooh-whoa

Baby don't stress, relax  
My mind has to stay right where they at  
I'm gonna hit you with the big facts  
Take another bite, I'm the Big Mac  
Girl you know I got the secret sauce  
Take another sip, getting so lost  
You got me feeling so low yeah  
It's not a question, no need to ask

You get so uncomfortable  
So let's turn the lights down low  
Your hips moving nice and slow  
You can see it in but I know  
You get so uncomfortable  
So let's turn the lights down low  
Girl you're so beautiful

Here we go, there you are  
Dancing in the dark  
And you stole, stole my heart  
Dancing in the dark  
And I know once we start  
Dancing in the dark  
That you stole, stole my heart  
Dancing in the dark

Ooh-whoa  
Ooh-whoa  
Ooh-whoa  
Ooh-whoa
