

Diamonds

Cris Cab

She got the voice of an angel
Sun hit you like my chain glow
Baby Paloma likes your angles
And we levitate, when we dance slow
And when you come my way
Feeling like Michael Bay
I wanna shoot it all day
Non-stop, the way our eyes lock

You make a baby go wah
When your booty just drop
And you got me like, "Oh my God"
You make a baby go wah
And your friends go wah
The way your eyes just shine
I think that I'm going blind

Eyes just like diamonds
Eyes just like diamonds
Eyes just like diamonds
Eyes just like diamonds
Eyes just like diamonds

(Eyes just like diamonds, shining)

Wake up, body on my body
Laying on my chest like a pillow
Every morning, every hour
You make me wanna be an animal
And when you come my way
I got nothing to say
Like a child, got my blushing
'Cause they don't know, they don't know nothing

You make a baby go wah
When your booty just drop
And you got me like, "Oh my God"
You make a baby go wah
And your friends go wah
The way your eyes just shine
I think that I'm going blind

Eyes just like diamonds
Eyes just like diamonds
Eyes just like diamonds
Eyes just like diamonds
Eyes just like diamonds
Eyes just like diamonds
Eyes just like diamonds
Eyes just like diamonds
Eyes just like diamonds

Ay
Yeah
Yeah
When you shine
I go blind

When you shine
Just like diamonds
