

In The Middle

Cris Cab

Talking in circles
Chasing our tails when you ask for a light
On our way back home
Said it's been way too long
You got a style, can't recognize
Keeping me guessing all of the time
And I'm tryna find you
If only you knew

And I can't decide
Ooh, you're like a riddle
Going side to side
I'm stuck in the middle
For you
For you
'Cause you're a new line
I'm the instrumental
Of your song and I'm
Just tryna fit in
With you
With you

See, I can't really fall asleep 'cause I don't really like being lonely
And ever since you gone away I been staying up till the morning
I think I'll roll a jay to make it all okay
Take the pain away, not feeling good today
And I don't wanna fight, wish you'd come in closer
Need you in my life, let's just start it over, eh, eh
We can start it over, eh, eh

And I can't decide
Ooh, you're like a riddle
Going side to side
I'm stuck in the middle
For you
For you
'Cause you're a new line
I'm the instrumental
Of your song and I'm
Just tryna fit in
With you
With you

If it ain't too late, just meet me halfway
Wouldn't hurt for you, meet me halfway
With the sun in her eyes
It's a new kinda life
But I've been so pleased to meet you
Just a little bit more to keep you
Making me feel so alive
It's a new kinda life

And I can't decide
Ooh, you're like a riddle
Going side to side
I'm stuck in the middle
For you

For you
'Cause you're a new line
I'm the instrumental
Of your song and I'm
Just tryna sing along
With you
With you
