

Life Goes On

Cris Cab

Down the path and up the street
Lived a girl that talked to me
Life was simple, life was sweet
The time I felt the most complete

Don't be waiting 'til it all comes back around
When it's over you could find out how,
How life goes on.
Yeah... life goes on

Lord knows I'll be gone for good
To travel the world I thought I could
And the faces change but it's all the same
A familiar voice to call my name

Don't be waiting 'til it all comes back around
When it's over you could find out how,
How life goes on.
Yeah... life goes on
Mmmh, life goes on
Yeah... life goes on

Days they pass me by
And the clock moves slowly
I wonder if I try
I could find the only
Thing that's in my life
That will bring me right back home...
Life goes on.
Yeah... life goes on
Mmmh, life goes on
Yeah... life goes on.
