

Turn out the Light

Cris Cab

I've got a clear mind and a guilty conscious
I don't, I don't hesitate
Blaze up, little skeleton inside my closet
Gotta, I got to demonstrate
There must be something inside of the water
Something that I drink
Lock up your mother, lock up your daughter
Cause ain't nobody said

Turn out the light
Just get, get the poppin right
Cause there's too many people day after day
They got turn off the light
There's no need to fight
Just get the poppin right
Cause there's too many people day after day
They got turn off the light

Oh I started looking inside the mirror
So there's something no one scaped
I got the feeling that I'm young and helpless
So I, so I medicate
I'm always thinking about the solution
I kinda meditate
I'm asking God about the answers
He said: "There's too much on your plate"

Turn out the light
Just get, get the poppin right
Cause there's too many people day after day
They got turn off the light
There's no need to fight
Just get the poppin right
Cause there's too many people day after day
They got turn off the light

Ok, leggo, leggo
Somos igual, aquí, allá, ahí o acá
Hay que bailar, aquí la vida disfrutar
No lo tomes personal, mantente siempre real
Misma nacionalidad, somos de la música
Ven pa' aca, cambia esa mala cara
Libérate, suelta esa vibra mala
No lo tomes personal, mantente siempre real
Misma nacionalidad, somos de la música

Turn out the light
Just get, get the poppin right
Cause there's too many people day after day
They got turn off the light
There's no need to fight
Just get the poppin right
Cause there's too many people day after day
They got turn off the light
