

Your Love

Cris Cab

Your love is a liar
But I see you, when you're coming back to me
Your love is a liar
But I forgive you
Cause I still believe in it

La la la la lee lee...

And if you feel like running baby
You can run to me
And if you feel like crying baby
Well, cry for me

For me, for me, for me

Mentirán tus besos
Antes o después
Si no es amor, yo no sé lo que es
Mentirán tus besos
Por última vez
Y si es amor, no hay hueco para tres

Your love is a liar
But I see you, when you're coming back to me
Your love is a liar
But I forgive you
Cause I still believe in it

Your love is a liar
And it brings me down to my knees
I know your love is a liar
But it never lies to me

La la la la lee lee...

Your love is strong
My weed is strong
You turn me on
You know you can't go wrong
Won't lead you on
Just wanna have some fun
You know I'm not the one
I'm always on the run
And I don't really care what your friends say
Cause they don't understand the games we play so
Let's get it on
From dusk til dawn
...This a Tarantino song

Your love is a liar
But I see you, when you're coming back to me
Your love is a liar
But I forgive you
Cause I still believe in it

Your love is a liar
And it brings me down to my knees

I know your love is a liar
But it never lies to me

La la la la lee lee...
