## Crisis

You've read in it in a book  
Seen it on a TV screen  
To you it's a nightmare  
But to some it's a dream  
They think the nass was thicker  
Behind the union jack  
You'd better watch out brothers  
They're heading for a comeback  
Remember Belsen, remember Auschwitz  
They're trying to say they didn't exist  
Don't let 'em put this country in chains  
Don't let the millions die in vain.
