

## Extreme Fire Hazard

Crisix

Flick the pyro switch when all is said and done  
When words are not needed the fire burns it all  
Hesitation is desperation, lose yourself into ignition  
It's medical, chemical, jump into the radical

Fire  
Releasing pressure, my breath is afire  
Fire, fire's outta control

Extreme fire hazard  
Fire hazard  
Extreme

Fire merging, clashing in the pulse  
Shivers down my spine, I'm addicted to this drug  
Cannot get a grip, I feel like a juggernaut  
Cannot deny the adrenaline filling my lungs with

Fire  
Releasing pressure, my breath is afire  
Fire, fire's outta control

Extreme fire hazard

Feel the heat and light the wick  
Feel the heat and flick the switch  
Feel the heat and make it explode  
Fuel the fire and make it burn, c'mon!

Fire it up!  
Fire it up right now and burn it to the ground!

Extreme, extreme  
Extreme fire hazard

Extreme fire hazard

Burn, fire, fire, burn  
Extreme fire hazard  
Burn, fire, fire, burn
