

# Perseverance

Crisix

Perseverance against the odds  
Swimming in a sea of mud  
Words that soon will cut like knives  
Old scars tell: go fuck yourself!

Same old story comes to me  
Blind ones preach that I can't see

Just take care about your life  
Instead of talking about what's mine  
A hard conviction that won't be bent  
You can't criticise what you don't understand

My... my fate isn't clear  
Rocks will block my path  
Watch! I'll climb with no fear  
There won't be wasted years  
Eat it!  
There won't be wasted years

I will stand tall  
Perseverance  
I won't take your shit  
Deal with it

Go fuck yourself!

Here we go again motherfuckers  
Unstoppable restless will  
Always looking for the next step to reach  
Always forward until last breath we'll be

My... my fate now is clear  
No more rocks in my path  
Watch! I'll climb with no fear  
There won't be wasted years  
Won't be wasted!

There won't be wasted

I will stand tall  
Perseverance  
I won't take your shit  
Deal with it  
Perseverance against the odds  
Swimming in a sea of mud  
Words that soon will cut like knives  
Old scars tell: go fuck yourself!

Perseverance against the odds  
Perseverance against the odds

I... I will stand tall!  
Perseverance!  
I... I won't take your shit  
Perseverance
