

Don't Give In

Cro-Mags

No matter the battles you face
No matter what life demands
No matter the struggles you face
You gotta give everything that you have
No one said that life was fair
And if they did, they lied
No one said life was fair
You gotta fight to survive
Don't give in
Don't give in

Sometimes it's hard to see
Past your own fear and regrets
But you don't know

Things that haven't happened yet
You owe it to life itself to fight for every breath
For every moment of life fight for your final breath
Don't give in Don't give in
No matter your fall from grace
No matter what life demands
Forget your expectations
Life has other plans
Don't give in
Don't give in
Don't give in
