Memories of the times you had That's the way you see yourself You fight for your rights You fight to survive

You come into this world With nothing except yourself You, you leave this world With nothing except yourself

Do what you want
And how you want it
Feel it's right, go out and do it
Think for yourself
And think for the best
Or you'll go down just like the rest

You come into this world With nothing except yourself You, you leave this world With nothing except yourself
