

## There Was a Time

Cro-Mags

So much can happen  
In so little time  
You can lose all your friends  
And come so close to dying  
You can be betrayed  
And then be redeemed  
You can lose those you love  
And lose what you believe

There was a time  
That I believed  
And there was a time  
That I was deceived  
And there was a time  
I was broken inside  
And there was a time  
I was living to die

So much can happen  
In so little time  
You can lose all your friends  
And come so close to dying  
You can be betrayed  
And then be redeemed  
You can lose those you love  
And lose what you believe
