

Dream

Cro

Yeah!

Baby, how many times somebody told you "come, let's get away from here"
I've got what you need, a brush for your teeth and a little bit of insanenes
s

Yeah!

Whenever you feel alone, I'll be there but you're never ever by my side
Cause every time I see you my heart gones tick tick boom like dynamite
Uh huh!

And all them girls wanna be like her

Uh huh!

But believe me I don't see them girls

Hey yo!

And I think it's just because I'm so in love, so when I dream don't wake me
up

Sometimes I only dream of you

Tell me what do I have to do, that you belong to me

I would do anything for you

'Cause you've got what I need

Baby come with me

I'm feeling so alone, don't know what to do

And no matter where I go I just think of you

But all I really wanna know is how to make you mine

Baby, let me know if you're alive

Every day, another state, I am away on the plane

But I got a problem girl

'Cause they don't love me

But my money is the same all around the world

Let me know, let me know, let me know, let me know baby girl that you exist

'Cause if not, I'm gonna a-a-act a fool like Ludacris

Uh hu!

'Cause baby you're the only one for me

Uh hu!

Come and let me by your company

Hey, yo!

And I think it's just because I'm so in love, so when I dream don't wake me
up

Sometimes I only dream of you

Tell me what do I have to do, that you belong to me

I would do anything for you

'Cause you've got what I need, baby come with me

I'm feeling so alone, I don't know what to do

And no matter where I go, I just think of you

But all I really want to know is how to make you mine

Baby, let me know if you're alive

And I don't know what she is doing

Baby, don't know where you are

I feel alone an everyday I ask myself if you're alive

And every hour I'm thinking about you just to get by

Just because I'm so in love don't wake me up

Don't wake me up

Sometimes I only dream of you

Tell me what do I have to do, that you belong to me

I would do anything for you

'Cause you've got what I need, baby come with me

I'm feeling so alone, don't know what to do

And no matter where I go, I just think of you

But all I really want to know is how to make you mine

Baby, let me know if you're alive
