Sleeping on a cloud
Living in a dream, I'll still be around
You
Puffing on a dream
Light it up, baby, we never going down
Down, down, down
And maybe if you scared
You can take my hand, I will keep you safe
Safe, safe, safe
And you can rest your head
Put it on my lap, when we fly away
Ay, ay

You can be my summer love
Be my summer love, summer love, summer love
Be my summer love, summer love, summer love
You can be my summer love
Be my summer love, summer love
Be my summer love, summer love, summer love
You can be my summer love
Be my summer love, summer love
You can be my summer love
Be my summer love, summer love

I'm so high
So high
High on you
I'm so high on you
So high
And I hope you too
