

Blackout

Crobot

Find a resting place
Time to waste away
Don't tell me what I could've been, what I should've been
Is it over now?
Time to waste away

I hope you never have to call my name
Don't think you ever will
Don't think you ever will

Blackout, so unbelievable
You're starting to go blind
One day they'll find you buried in a shallow grave

Memories erased
From the motherbrain
It's darker than it's ever been, this may never end
Growing colder now
Nothing left to say

I hope you never have to call my name
Don't think you ever will
Don't think you ever will

Blackout, so unbelievable
You're starting to go blind
One day they'll find you buried in a shallow grave
Blackout, so unbelievable
You're starting to go blind
One day they'll find you buried in a shallow grave

Blackout, so unbelievable
You're starting to go blind
One day they'll find you buried in a shallow grave
Blackout, so unbelievable
You're on your last life
One day they'll find you buried in a shallow grave
They'll never even know your name
Buried in a shallow grave

Find a resting place
