

Come Down

Crobot

Tossed into the heavens
And the Garden of Eden
Left me for dead to get it right

It's a pity nobody wants to see
Now they're right in front of our eyes

Hey kid, settle down
Don't you know your head's up in the clouds?
And you're never coming down, yeah yeah
(Get what you got, you gotta get it now)
Hey kid, settle down
Yeah you already know how
And the future is now, yeah yeah
And you're never gonna come down

Slipped into a hole in the Earth
Where the demons go for the devil's curse
Clawing my way to the light

It's a pity nobody believes me
Now they're right in front of our eyes

Hey kid, settle down
Don't you know your head's up in the clouds?
And you're never coming down, yeah yeah
(Get what you got, you gotta get it now)
Hey kid, settle down
Yeah you already know how
And the future is now, yeah yeah

What do I have to say
To give these secrets away?
Who do I have to blame
To take my shame away?

Give these secrets all away, yeah yeah
Oh, to take my shame away
To take my shame away

Hey kid, settle down
Don't you know your head's up in the clouds?
And you're never coming down, yeah yeah
(Get what you got, you gotta get it now)
Hey kid, settle down
Yeah you already know how
And the future is now, yeah yeah
And you're never gonna come down
Hey kid, settle down

You already know how
Hey kid, settle down
Your future is now
Get what you got, you gotta get it now
Your head's up in the clouds
You already know how
