

Cosmic Doppelgänger

Crobot

We're probably here or there definitely never definite
As a matter of fact there's only matter of chance

He's me, I'm him, we're all boogie down this quantum leap
Right now I guarantee he is where I'll never be

Cosmic doppelgänger
Me and my anti matter twin

Entangled in the connection that fuses our existences
We wouldn't stop the progress
Due to distances

He's me, I'm him, we're all boogie down this quantum leap
Right now I guarantee he is where I'll never be

Cosmic doppelgänger
Me and my anti matter twin
