

Is it hard to believe
We've been bleeding?
Bite the hand that feeds
Take the hunger away

Buried up to my knees
In words engraving
All the scars you've made
Carving your name

Take what you want
It'll never be enough
Let my hate decay
'Cause we fake a lot of love

Take me far away
But we keep on spinnin' till we don't feel dizzy
I've been laid to waste
But we keep on spinnin' till we don't feel dizzy

Fight the war at peace
Your soul is killing
All the empathy
You've driven away

Take what you want
It'll never be enough
Let my hate decay
'Cause we fake a lot of love

Take me far away
But we keep on spinnin' till we don't feel dizzy
I've been laid to waste
But we keep on spinnin' till we don't feel dizzy

We spend a lot of time in place
Round and around with the sun
We circle down and through the drain
Into oblivion

Take me far away
But we keep on spinnin' till we don't feel dizzy
I've been laid to waste
But we keep on spinnin' till we don't feel dizzy
Dizzy, yeah
