

Electrified

Crobot

Electrified
Yeah

Look into my eyes
And see into my mind
I can never die
I am immortalized

Keep them terrified
Fear will paralyze
Unleashed into the night
I'm ready to ignite

Blood rushing underneath the broken bones
Keep pumpin' till we explode
Till we explode

I hear your cries
In the shadow of the night
When lightning strikes
My engine's amplified

Feel my bite
I'll keep the monsters in my sights
It's time to fight
My power is inside

Whoa, the world is mine
Electrified
Electrified
Whoa, I'll keep you more alive
Electrified
Electrified

I am not afraid
Predator meet prey
Hide among the snakes
I'll keep the wolves at bay

While you sit and pray
Waiting to decay
Your ending still awaits
I rule the world today

Blood rushing underneath the broken bones
Keep pumpin' till we explode
Till we explode

I hear your cries
In the shadow of the night
When lightning strikes
My engine's amplified

Feel my bite
I'll keep the monsters in my sights
It's time to fight
My power is inside

Whoa
The world is mine
Electrified
Electrified

Whoa
I'll keep you more alive
Electrified
Electrified

Blood rushing underneath the broken bones
Broken bones
Keep pumpin' till we explode
I hear your cries in the shadow of the night

Whoa
The world is mine
Electrified
Electrified

Whoa
I'll keep you more alive
Electrified
Electrified
Electrified
Electrified
