

Gasoline

Crobot

When I called out, you kept saying
Come back another day
When I screamed, no one listened
Now you can't be saved

So don't you lie to me
Yeah, don't you lie to me
And tell me everything's alright

Poisonous tongues created me
I was baptized in gasoline
Walk through the flames and all my blood burns
I was baptized in gasoline

Don't turn away from what you did
Now face me, you can't face me
Now my past has no meaning
You made me what I am

So don't you lie to me
Yeah, don't you lie to me
And tell me everything's alright

Poisonous tongues created me
I was baptized in gasoline
Walk through the flames and all my blood burns
I was baptized in gasoline

Poisonous tongues created me
I was baptized in gasoline
Walk through the flames and all my blood burns
I was baptized in gasoline
