

Happiness

Crobot

I learned before
Skies can hide the storm
Some times the wind will blow

If you feel like you're lost in time
On an endless mountain to climb
Don't let the rainy days cloud your mind

In the light of the moon
Flowers bloom
The sun rises soon
And flames heal wounds

Happiness ain't the end of our song
It's just the one my soul keeps singing
To keep me holding on
And happiness ain't the destination
It's just the name of this road I'm travelin' on
Travelin' on

Fears feed the lies
Forgot the answers of life
When we're broke we pay the price

There's no in between
Won't be a living memory
Found why I was born
Now it'll be the death of me

Even in the end
Scars will mend
No need to pretend
If you find love, my friend

Happiness ain't the end of our song
It's just the one my soul keeps singing
To keep me holding on
And happiness ain't the destination
It's just the name of this road I'm travelin' on
Travelin' on
