

Metal

Crobot

Survived the witch's spell
Back from the gates of hell
Laughed at the demons who came to take me down
Forged from the fire
Walked on the barbed wire
On my way to the grave

Rolled like a wheel
Skin hard as steel

I am metal
Riding through the night with the devil
Signed a contract in blood
To live forever

I am metal

Caught in the widow's web
Thrown like a flaming head
Crawled up from 6 feet just like the living dead
Stared at Medusa's glare
Stone faced without a care
In death I feel so alive

Rolled like a wheel
Skin hard as steel
In the blackest of nights
I'll keep on this road til the end
Alone with the shadow
My only friend

I am metal
Riding through the night with the devil
Signed a contract in blood
To live forever

I am metal
I am metal

Rolled like a wheel
Skin hard as steel
In the blackest of nights
I'll keep on this road til the end
Alone with the shadow
My only friend

I am metal
And I ride through the night
Signed a contract in blood
To live forever

I am metal
I am metal
