Temple in the Sky

Crobot

Lost somewhere in time
Somewhere it fades
Somewhere between the fabrics of my mind
Found on the brink of being extinct
Unless I find my way out

Take my hand now cause I will never bow

They're here to take me away
But I'm not afraid
We all have our day

Live, blood on the knife
A compromise
Enough to please all of the gods of death
Call the divine to say goodbye
Because I see the light

Take my hand now cause I will never bow

They're here to take me away
But I'm not afraid
We all have our day

They're here to take me away
But I'm not afraid
We all have our day

If you wanna find, you got it
If you wanna find, you got it

You gonna take me...
You gonna take me...
You gonna take me to the temple
You gonna take me...
You gonna take me...
You gonna take me to the dirt

You gonna take me...
You gonna take me...
You gonna take me to the temple
You gonna take me...
You gonna take me...
You gonna take me to the dirt

They're here to take me away
But I'm not afraid
We all have our day

They're here to take me away
But I'm not afraid
We all have our day

If you wanna find, you got it
If you wanna find, you got it
