

The Hive

Crobot

I thought I could find my way out
But I am just so far gone now
Thought I was chasing a dream
But I was just sleeping
Now I'm just barely breathing

A brain needs oxygen
And they stole your breath
So take your medicine

Fall in line to feed their pride
Tastes like honey to the hive
When all we do is fight to survive
We're giving everything we have to the hive

Take another piece for yourself
How could this turn out so bad?
Take another piece of me
You love to make me feel completely broken

A brain needs oxygen
And they stole your breath
So take your medicine

Fall in line to feed their pride
Tastes like honey to the hive
When all we do is fight to survive
We're giving everything we have to the hive
To the hive

I thought it wouldn't be this way
Now I'm just so far gone

Fall in line to feed their pride
Tastes like honey to the hive
When all we do is fight to survive
We're giving everything we have to the hive
To the hive
