

# White Rabbit

Crobot

I cannot breathe  
Since you took the air from me  
I cannot sleep  
Within memories of a dream

I didn't mean to find  
The raging war inside my mind  
No longer can I deny  
So chew me up  
Just to spit me out

I went looking for myself  
Found someone else  
Cause I've been chasing a white rabbit  
Down a black hole

Breathe into me whispers of future memories  
So I can see who I can become to be

I didn't mean to find  
The raging war inside my mind  
No longer can I deny  
So chew me up just to  
Spit me out

I went looking for myself  
Found someone else  
Cause I've been chasing a white rabbit  
Down a black hole

A dream-like trance  
I search to find  
To rid these fears inside my mind  
They can only control me  
If I don't I want to be free  
I want to be free...

I went looking for myself  
Found someone else  
Cause I've been chasing a white rabbit  
Down a black hole

Be careful what you wish for  
Learn to embrace the struggle  
Be afraid of what you run from  
Your demons catch up with you your demons will catch up
