

## Covered in Fire

Croixx

Covered in fire  
I'm shaking now  
How did you move on  
To someone else  
And it don't take long  
'Til the one you love goes  
And now I'm covered in fire  
And you're the only one who knows

You know it's not the same as it used to be  
But you still mean everything that you used to mean to me  
And I'm tired of finding ways to live without you

And I hate to say  
But you're one of my mistakes  
And I payed for that this time  
Only one mind you had to change  
And you never changed my mind  
But I'm still, but I'm still

Covered in fire  
I'm shaking now  
How could you move on  
To someone else  
And it don't take long  
'Til the one you love goes  
And now I'm covered in fire  
And you're the only one who knows

You know it's not the same as it used to be  
But you still mean everything that you used to mean to me  
And I'm tired of finding ways to live without you
