

One Day At A Time

Croixx

I'll take it one day at a time
I know you're not here by my side
And I'm a mess
Wish you the best
Don't know these feelings
I've never met these demons
Carry them inside
I need you tonight

You broke me one time
And that's all it takes
What goes on in your mind?
How'd you do me this way
Never knew what love was till I lost it
Never knew the price I'd pay for problems
And even though you're gone I still can't solve em
I really gave you my all
I guess that's the problem

I'll take it one day at a time
I know you're not here by my side
And I'm a mess
Wish you the best (Wish you the best)
Don't know these feelings
I've never met these demons
I carry them inside
Need you tonight

I take it one day at a time
I know you're not here by my side
And I'm a mess
Yeah, I'm a mess

(Take it one day at a time
Know you're not here by my side
And I'm a mess
I'm a mess)
