You and I

Croixx

When you walk by, I feel something
Take your time, don't come fronting, yeah
'Cause I'm still in love
It's you and I, oh, I got nothing
When you walk by, I feel something
Take your time, don't come fronting, yeah
'Cause I'm still in love
It's you and I, oh, I got nothing

Yeah
I said I got nothing
You said I can never live without you again
And this mess is something that I'm gonna regret
'Cause now I'm without you
Ain't perfect, I try to
Get outta my head when you're around
I need you to lean on, give me a reason
To get out my head, I get out my head somehow

When you walk by, I feel something
Take your time, don't come fronting, yeah
'Cause I'm still in love
It's you and I, oh, I got nothing
It's you and I, oh, I got nothing
It's you and I, oh, I got nothing
I can't keep running
It's you and I, oh, I got nothing
