

Holiday

Crooked Colours

Are you tired of feeling like I am
Tired of watching your days go to waste
Are you dreaming of time spent floating
Far away

And I can't stand the silence
Let your love take me away
I've been dreaming of moments
Wrapped in your embrace

So take me away
I need a holiday
Take me away
You make the silence fade away
Take me away
I need the sun upon my face
Take me away
All of the signs point me your way
So take me away
I need a holiday
Take me away
You make the silence fade away
Take me away
I need the sun upon my face
Take me away
All of the signs point me your way
So take me away

Are you tired of dreaming like I am
Tired of feeling your time slip away
Your love is my destination
Like the ocean calling my name

So take me away
I need a holiday
Take me away
You make the silence fade away
So take me away
I need a holiday
Take me away
You make the silence fade away
Take me away
I need the sun upon my face
Take me away
All of the signs point me your way
So take me away
