

In Your Bones

Crooked Colours

It's a little colder, I know
Trust me, darling
There's no need to be alone

There's no need to be alone, now
Let me in your bones, girl
Show me all of 'em
There's no need to be alone, now
You're a low burning light
Here to see the moon rise
There's no need to be alone, now
There's no need
There's no need

You're alone
Can you hear me baby?
Alone
Don't be alone, now
You're alone
Come a little closer
You're alone
Let me in your bones

There's no need to be alone, now
Let me in your bones, girl
Show me all of 'em

You're alone
Can you hear me baby?
Alone
Don't be alone, now
You're alone
Come a little closer
You're alone
Let me in your bones
Alone
Can you hear me baby?
Don't be alone, now

Alone
Can you hear me baby?
Alone
Don't be alone, now
You're alone
Come a little closer
Alone
Let me in your bones
Can you hear me baby?
Don't be alone, now
Alone
Come a little closer
Alone
Let me in your bones
You're alone
Can you hear me baby?
You're alone
Don't be alone, now

Come a little closer
Don't be alone, now
