

The Deal

Cross Canadian Ragweed

I don't like livin' in this town
I don't like the way it makes me feel
It ain't much better when I moved around
Rolling around rolling on from town to town
I don't like to be ignored
I don't like it when you stare me down
My heart and soul are torn twisted thorn woven all around your
crown

I don't mean to sound condescending
There's no need in me pretending
Let the deal go down

Well it ain't no breaking news
No it ain't like it was
You got this thing you do
The thing you do
You know what it does
My head's been hanging down, mmm
Dark clouds follow me around
Follow me down
Rolling on from town to town
I don't mean to sound condescending
There's no need in me pretending
Round, round, and round
I don't mean to sound condescending
There's no need in me pretending
Let the deal go down
