

The Killer Inside

Crossbreed

(Hide you
They'll never find you
We'll be together again
If we decide to)

You can't hide
The killer inside
Seen the look in your eyes
As you look into mine
As you look into mine
As you look into...

Welcome to oblivion
The Garden of Eden
Only I can save you now

(Hide you
They'll never find you
We'll be together again
If we decide to)

I am the darkness
I must embrace this
I can't escape this

(Hide you
They'll never find you
We'll be together again
If we decide to)

You can't hide
The killer inside
Seen the look in your eyes
As you look into mine
The killer inside of you

You can't hide
The killer inside
Seen the look in your eyes
As you look into mine
The killer inside of you

Welcome to oblivion
The Garden of Eden
Only I can save you now

My addiction
Without injection
Toxic connection

Hide you
They'll never find you
We'll be together again
If we decide to

Do not resist
You won't exist

If you must try
You won't survive

I am the darkness
There is no light
In this new world
In this new world
We all must fight

You can't hide
The killer inside
Seen the look in your eyes
As you look into mine
As you look into mine

You can't hide
The killer inside
Seen the look in your eyes
As you look into mine
As you look into mine
The killer inside of you
You can't hide
The killer inside
Seen the look in your eyes
When you look into mine
The killer inside of you

(Hide you
They'll never find you
We'll be together again
If we decide to)

(Hide you
They'll never find you
We'll be together again
If we decide to)
