

Death Bell

Crosses

I climb inside your golden gates
I fell into another state
Hide inside your holiness
I give into you all the way

I'll follow you into the light
I'll follow you into the light

I will....

I clime inside your golden gates
I fell into another state
Hide inside your holiness
I give into you all the way

I'll follow you into the light
I'll follow you into the light

I will....

I'll follow you into the light
I'll follow you into the light

I will....
