

## Eraser

## Crosses

Once heavenly  
A blacked out new  
Permanent trail  
Is hanging underneath  
The sun and beyond  
What should appear  
Actually  
No more remains  
Confusing us all...

Eraser  
Look around around around  
Eraser  
Look around around around

I wish you could've viewed it's  
All become dreary and bare  
Who would've known  
It would turn into this  
Now walls surround and  
Everything else seems cold and pale  
It's strange and it jars my head

Eraser  
Look around around around  
Eraser  
Look around around around

Eraser  
Look around around around  
Eraser  
Look around around around
