

Found

Crosses

On our way
Into the void
We enter the light
Chained together

On the brink
Our faith aligned
High on the tides
Lost forever

Wait, just wait it out
Somewhere in the distant
Our fate will be found
Wait, just wait it out
Somewhere in a dream
We're together

You followed me
Into the pines
Through space and time
Lost forever

Through the trees
Our faith aligned
Out of our minds
We stick together

Wait, just wait it out
Somewhere in the distant
Our fate will be found
Wait, just wait it out
Somewhere in a dream
We're together

Wait, just wait it out
Somewhere in the distant
Our fate will be found
Wait, just wait it out
Somewhere in a dream
We're together

Wait, just wait it out
Somewhere in the distant
Our fate will be found
Wait, just wait it out
Somewhere in a dream
We're together
